

NLZ5 Bulldozer Tires

The Duratech NLZ5 is an L-5 pattern engineered to take on even the most challenging applications in quarries and mines where traction and durability are most required.

Parts Details Of NLZ5 Bulldozer Tires

The extra deep offset lug tread

- The extra deep offset lug tread offers excellent tractions and enables maximum resistance to puncture and cuts, as well as longer wear life.

Bear 20% more load

- The tire architecture is reinforced to bear 20% more load, and the casing is specially strengthened for better rip-resistance in extreme working conditions.

Increase the cut and wear resistance

- Exclusive compounds for mining are applied to increase the cut and wear resistance.
